(54) Title: THROMBOMODULIN (THBD) HAPLOTYPES PREDICT OUTCOME OF PATIENTS

(57) Abstract: The invention provides methods and kits for obtaining a prognosis for a subject having or at risk of developing an inflammatory condition. The method generally comprises determining a thrombomodulin genotype(s) of a subject for one or more SNPs, comparing the determined genotype with known genotypes for the polymorphism that correspond with the ability of the subject to recover from the inflammatory condition and identifying subjects based on their prognosis.
